on the go kits

Book a Maker Appointments

Visit the Launch Pad page of the ITPLD website to make a one hour appointment with one of the Launch Pad staff members. Learn how to prepare files for the laser cutter or 3D printer, use the sewing, Silhouette or embroidery machines, or get help with a project.

Free Weekly Supplies

Members who have a library card in good standing are allowed two free items from the supply list each week. Check the Launch Pad page of the website for a list of supplies. The week starts on Monday and ends on Sunday.

Launch Pad Hours

Monday-Friday, 1-8 pm
Saturday, 10 am-4 pm
Sunday, 1-4 pm

The Launch Pad opens 2 hours early on weekdays in the summer.

Last reservation for Media Lab appointments is 30 minutes before Launch Pad closing.

THE LAUNCH PAD

Visit ITPLD's makerspace, the Launch Pad to learn, create, explore, play and collaborate. The Launch Pad is a space for all ages.
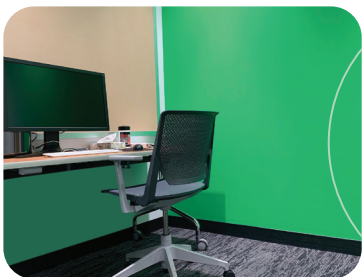

DIGITAL MEDIA LABS

Explore the Sound Lab, Editing Lab and Archiving Station for your creative and digitizing projects.

Use the Archiving Station to digitize VHS tapes, Super 8/8mm film, audio cassettes, pictures and slides.

Use the Editing Lab to shoot video using the green screen or edit sound and video files.

Record and edit a podcast or music in the Sound Lab's Whisper Room.

Visit **ITPLD.org**

Make a reservation for any of the media labs on the Launch Pad page of the ITPLD website. Ages 9 years and older. Registered library card required.

EXPLORATION KITS

Visit **ITPLD.org**

Exploration kits are checked out and used in the Launch Pad during open hours. Visit the Launch Pad page on the website for a full list of available kits.

Popular kits include:

Jewelry Making
Make a bracelet or necklace with basic jewelry tools and beads

Watercolor Painting
Learn from a watercolor painting book or just make your own creation

Bloxels
Make your own video game

Rainbow Loom
Make a chain, bracelet or necklace with colorful elastic bands

Legos
Minions, city scapes and stop motion animation

3Doodler Pens
Make your own 3D objects with a 3D pen

TOOLS

The Launch Pad offers many tools for members to use free of charge. If you've never used one of these tools, we suggest scheduling a Book-a-Maker appointment on the Launch Pad page of the website.

Lulzbot Taz 6 and Mini 3D printers
- Find or create 3D files and send them to print

Epilog Mini Laser Cutter
- Engrave onto glass, wood, acrylic and more
- Cut wood, acrylic and more (3/8" thick maximum)

Silhouette Vinyl Cutter
- Cut intricate designs out of cardstock, vinyl, heat transfer vinyl and more

Janome Magnolia sewing machines
- Sew your projects

Brother Embroidery machines
- Embroider text and designs onto fabric

AccuQuilt Go Big
- Die cut fabric shapes; useful for quilters.

Button/Magnet maker
- Create your own buttons and magnets

Sizzix Die Cut machines
- Use a variety of dies to cut paper and cardstock for a range of uses
